## ABOUT ME

Software Developer with 3 years of hands-on experience in building and deploying scalable web applications. Proficient in the LAMP/WAMP stack (PHP, MySQL, HTML5, CSS3, JavaScript, jQuery, AJAX) with proven expertise in modern front-end frameworks including Angular and React. Skilled in developing responsive, user-centric interfaces, integrating RESTful APIs, and enhancing performance for seamless user experiences. Adept at delivering end-to-end solutions by combining robust back-end systems with intuitive front-end designs to achieve functionality, speed, and reliability.

## EDUCATION

E G S PILLAY ENGINEERING COLLEGE (AUTONOMOUS) | 2019 - 2021

### Master of Computer Application

AGGREGATE: 72%

JAMAL MOHAMED COLLEGE | 2016 - 2019

### Bachelor of Computer Application

AGGREGATE: 60%

---

## WORK EXPERIENCE

Rifluxyss Software PVT LTD | 2022 - Present

### Junior Software Developer

Project Name: **PalmAgent**

#### Project Description:

PalmAgent is an innovative mobile and web-based real estate application designed to provide agents and homebuyers with powerful tools for property calculations, localized market insights, and real-time data access. The platform offers two tailored versions—a general site and a market-specific version—both optimized to deliver responsive and seamless experiences across desktop, tablet, and mobile devices. Supporting both iOS and Android, the app combines advanced backend services with an intuitive front-end design to ensure smooth user interaction and efficient data flow.

## Role & Responsibilities:

- Led front-end development using HTML5, CSS3, JavaScript, React, and Angular to build responsive, mobile-first user interfaces aligned with modern UX best practices.
- Designed and implemented two web interfaces—one for the main PalmAgent site and another for a market-specific version—ensuring visual consistency and responsiveness across all devices.
- Developed reusable Angular components and dynamic JavaScript templates to enhance user-facing views within the mobile app.
- Built and integrated RESTful APIs for managing user data, content updates, and cross-platform functionality on both Android and iOS.
- Optimized backend logic using PHP and MySQL, implementing indexing and tuning techniques to reduce query times by 30%.
- Ensured secure database interactions with PDO, protecting against SQL injection vulnerabilities.
- Managed cloud services with AWS S3 for file storage and leveraged AWS Lambda functions for PDF processing and backend automation workflows.
- Collaborated with cross-functional teams to translate business requirements into scalable solutions, while maintaining clean, maintainable, and efficient code across the full stack.

## PROGRAMMING LANGUAGES

- |              |             |
|--------------|-------------|
| • HTML / CSS | • jQuery    |
| • JavaScript | • Ajax      |
| • PHP        | • AngularJS |
| • Bootstrap  | • React     |
| • MySQL      |             |

## TECHNICAL SKILLS

- **Front-End:** Angular, React, JavaScript (ES6+), HTML5, CSS3, jQuery, Responsive Web Design
- **Back-End:** PHP (LAMP/WAMP), RESTful APIs, API Integration, MySQL Optimization
- **Cloud & DevOps:** AWS (Amazon S3, Lambda Functions), Deployment & Hosting, Performance Tuning
- **Tools & Version Control:** Git, GitHub
- **Other Skills:** Problem Solving, Debugging, Cross-Browser Compatibility
